Material Handling Fan Assembly

“Serving the Paper & Converting Industry over 40 Years”

Each Material Handling Fan Assembly supplied by JWH Associates, Inc. includes:

- Outlet Silencer
- Optional Sound Enclosure
- Inlet and Outlet Transitions
- Inlet and Outlet Vibration Isolators
- OSHA approved Guards
- Rubber Mounts.

Features:

Drive:

OSHA guarded Fixed V-belt Drive driven by a 1800 RPM TEFC Premium efficiency Motor.

Fan Construction:

Sheet and Plate Steel are AISI 1017. Wheel Hubs are Fabricated Steel. Shafting is ASTM A-108, Grade 1045 Turned, Ground, Polished, and Straightened.

Wheel Design:

The “RD” Wheel includes back plate wheel and support gussets. The rugged heavy duty wheel is used in a broad range of high density bulk material handling. Applications include wood chips, all grades of board / paper trim and metal scrap or trim.

Fan Assembly

Optional Sound Enclosure
